great pleasure
The following are the styles of work manufactured by him: Continuous Gum; Block or Carved Work; Vulcanite Base; Ceralite; Amber; Cheoplastis, Gold and Silver work.

Nothing can excel the beauty and cleanliness of the continuous gum work. It is without a seam or crevice. Checks that are sunken can be restored. to nearly their original contour by this style of work, and also by the use of the Vulcanite, Coral-ite, and Amber Base. The latter styles, for light-ness and schaptation to difficult mouths, excel anycels anything we have ever seen.

He has several ansesthetics for afterfating pain when extracting teeth. They are perfectly harmless. The most deficate can have them applied. He does not advertise anything he cannot do, nor exhibit saything not made by himself.

Parents should consult the health and beauty of their children by having the Dentist direct their second dentition, thereby producing symmetry and health to those invaluable organs.

Irregularity of children's teeth correct successfully.

cessfully.

Those having decayed teeth, should either nave them extracted or filled at once (the latter if possible). The health of the parties and the remaining teeth demand this.

B I take pleasure, in introducing Dr. Haas, my successor to the old rooms in Bray's building hoping he will find them both pleasant and profit able From my intercourse with the Doctor, I am pleased to find him one of the progressing; possessing taste and high professional ability and standing. With this view, I can, withenfety, recommend him to the community as a skillful and competent deutist. (may 28)
